"The KJs are no slouches when it comes to thrashing, trashing and mangling beats. Charging maniacally through fidget, electro, breaks and adding a soupçon of dubstep, they crunch together tracks [...] to create a noisy, bass wobbling blast of a mix. Those who like it raw should investigate now..."

**DJ Magazine**

Whilst the Knob Jockeys moniker will still be around for our mashups and bootleg releases, we are now **KJs**, reflecting our move into original productions and harder, leaner mixes and performances.

**KJs** are three DJ/Producers from Manchester, England who have already gained attention from the likes of DJ Magazine, Rusko and Kissy Sell Out.

After a summer of working hard on new tunes and some excellent festivals appearances, we're back with a new 30 minute mix, 3 new releases and 3 upcoming shows!
